Applied Economics, 1986, **18**, 1365–1368

Indexes to Volume 18

TITLE INDEX

Advertising intensity and media selection, 557
Analysis of company liquidations, An, 219
Analysis of optimal scale and factor intensity in Nepalese agriculture: an application of a ray–homothetic production function, An, 1051
Analysis of the effects of higher education on wage differentials between blacks and whites by gender in the United States, An, 173
Analysis of the male racial earnings differential in the UK, using the *General Household Survey*, An, 1233
Application of risk analysis to the appraisal of optional investment in the electricity supply industry, The, 509
Are compensating wages paid for time spent commuting?, 1203
Are economists rational?, 453
Average hospital size and the total operating expenditures for B_1 beds distributed over H_1 hospitals, 279

Balance of payments constrained growth: a rejoinder to Professor Thirlwall, 1265
Balance of payments constrained growth: a reply to McGregor and Swales, 1259
Bankers versus bankruptcy prediction models: an empirical investigation, 1972–82, 479
Behaviour of a resource reducing bureau. A case study of an English polytechnic, The, 87

Causes and effects of vertical integration, 737
Comment on 'Cyclical and secular influences on the size distribution of personal income in the UK: some econometric tests' by G. Weil, 1103
Comparison of embodied technical change in services and industry, A, 941
Competitive and anticompetitive theories of advertising: an empirical analysis, The, 599
Constrained output maximization and US agriculture, 347
Consumption and income: some simple exercises with panel data, 757
Consumption expenditure on durables in Barbados, 1960–82, 1227
Cyclical response of employment to output changes: United States manufacturing industries, 1948 to 1983, The, 495

Debt management and interest rates: The British stock conversion of 1932, 1111
Demand for local public goods: choosing an appropriate functional form, The, 1179
Demand for money in some major OPEC members: regression estimates and stability results, The, 127
Demand for urban water by customer class, The, 1275
Demographic variables and equivalence scales in a flexible demand system: the case of AIDS, 265
Determinants of European Community imports of steel mill products, 863
Determinants of hospital size: a survivor analysis, 359
Determinants of new plant entry in Canada, The, 1243
Disequilibrium econometric study of the Canadian mortgage market, A, 399
Dynamic input demand: an application to agriculture, 807

Earnings functions: beyond human capital, 1291
Econometric analysis of the hospital size/patient load relation, 793
Education and earnings inequality across British labour markets, 205
Effects of parent company business on occupational credit union behaviour, The, 1311
Efficiency in water allocation under stochastic demand, 37
Efficiency of electric power pools: evidence from firing unit data, The, 1323
Energy and capital: substitutes or complements? A note on the importance of testing for non-neutral technical progress, 729
Estimation of the effects of utility-sponsored conservation programmes, The, 1
Estimating the statistical cost curve: an application of the stochastic frontier technique, 971
Estimating the uncertainty of the simulation properties of large nonlinear econometric models, 985
Estimating the welfare effects of voluntary export restraints and tariffs: an application to nonleather footwear in the UK, 1065
Examination of the efficiency of the London Traded Options Market, An, 995
Exchange rate and industrial profits: Austria's revaluation policy in the 1970s, 675

Factor costs and factor use: substitution among urban land and capital inputs in the production of single-family housing, 291
Factor demands, adjustment costs and regulation, 631
'Family labour supply: some empirical results from agriculture': A reply, 835
'Family labour supply: some empirical results from agriculture': Comment, 829

Generalization of modern production theory, A, 915
Growth and decline of the paper industry: an econometric analysis of US regions, 379

Human capital, job matching and earnings growth between jobs: an empirical analysis, 1135

Identification of key sectors in the Bangladesh economy: a linkage analysis approach, 421
Impacts of structural change within an economy on resource use: an input–output analysis, The, 457
Import penetration and barriers to trade: the case of the UK television set market, 615
Incorporating labour market structure in regional econometric models, 545
Inflation, non-neutral growth, equity yields and the Fisher hypothesis, 237
Innovation versus imitation: investigating alternative R&D strategies, 1359
International trade, secondary output and concentration in Canadian manufacturing industries, 1979, 529
Interpretation of the optimal control rules: the case of Taiwan for the first oil shock period, An, 71
Is it worth becoming an architect?, 59

Jobs and the business life-cycle in the UK, 875

Labour force substitution and the effects of an ageing population, 901
Labour substitution and complementarity among age–sex groups, 777
Law of One Price: further empirical evidence concerning Italy and the United Kingdom, The, 645
Loan market price and quantity effects in a production smoothing model of inventory investment, 691
Local public good demands and demographic effects, 1039

Market and spillover forces in wage award determination in Australia, 191
Market efficiency and investors' adjustments to asset valuation errors, 837

Nonbudgetary constraints in consumer demand for gasoline, 101
Non-nested test of the new classical neutrality proposition for Canada, A, 1349

Oligopoly power in British industry, 583
On some interpretations of the relationship between productivity and output growth, 1215
On the economics of the oil refining industry in the United Kingdom, 113
On the job search in a recession, 333
On the shock-absorption view of money: international evidence from the 1960s and 1970s, 1085

Production cost differentials and foreign direct investment: a test of two models, 1127
Profitability of mergers in food manufacturing, 709

Regional house price interactions in the UK, 1975–81: a cross-spectral analysis, 1011
Rejection of unbiasedness is not rejection of market efficiency: reply to Gilbert, 1167
Religious observance within a human capital framework: theory and application, 1193
Reply to Mr Nolan, 1109

Scrapping behaviour of concentrated and non-concentrated industries in the UK, The, 249
Second look at the US–Australian monetary growth causal nexus, A, 443
Some further evidence on the role of profits in union growth equations, 27
Specification error tests and the Jorgenson–Stephenson investment function, 851
Spot and forward exchange rates: some empirical evidence of Singapore, 319
State-value weighted entropy as a measure of investment risk, 411
Structural change in the yellow fats market, 663
Successful movies: a preliminary empirical analysis, 501

Test for variant objective functions in credit unions, A, 959
Testing the direct substitutability hypotheses of saving, 143
Testing the efficient markets hypothesis on averaged data, 1149
Testing the rationality of price expectations for manufacturing firms, 1335
Towards a theory of incremental wage scales, 1047

Unions, industrial concentration and wages: a re-examination, 305
Unit trust objectives and investor choice, 157

Variability in the experienced rates of inflation and price index linkage to social welfare, 49
Variation in price dependency measures on the London Metal Exchange, 929
Varying-parameter empirical model of balance of payments determination under fixed exchange rates: results for the UK and West Germany, A, 567

Wages and concentration in British manufacturing, 1025
Wages and hazardous working conditions, 819
